

## About us

MCIIE, is the Purvanchal's only Technology Business Incubation Center and top 19th in the country\* , this Centre was established in 2008 as a private non-profit society. MCIIE seeks to be recognized internationally as a leading independent Technology Business Incubation Centre, with the spirit innovate, commitment to make our nation great through Make in India and Entrepreneurship and dedication to inspire tomorrow's entrepreneurs and students. We are blessed with an inspiring ecosystem and fabulous minds of India with great entrepreneurial competencies.

The purpose of the Technology Business Incubator - Malaviya Centre for Innovation, Incubation & Entrepreneurship (MCIIE) is to simulate growth of technology based incubating companies to get proper competitive market and multidisciplinary exposure regarding to existing market through the fulfillment of this mission, the centre would contribute to Indian GDP and job creation within the Purvanchal region. This facility serves as a focal point for agri-business, manufacturing, renewable energy, solid waste management, information & communication technology, biotechnology, food technology, and allied sector business incubation. The centre also serves as a resource that helps raise the level of quality projects, skills, and awareness for 21st century challenge. In addition, the centre is the common meeting point for all technology driven businesses for interaction in Purvanchal region.

From the last 10 years students of IIT (BHU) & BHU received support from MCIIE and tried, tested commercialized their ideas in the global market and won several national & international awards such as **DST-LOCKHEED Martin Awards, India-International Trade fair Best Innovation, CII Best Innovation Award, and Dr. APJ Abdul Kalam Award.**

## Why “Varanasi Innovation Summit”?

The Varanasi Innovation Summit is continuation of the InSPIRE 2016 & 2017. This would be a major annual event bringing together those who are leading strategies, unlocking opportunities and delivering cutting-edge technologies, under one roof. This event will provide a

common networking platform for all the stakeholders and innovators at one place. Our visionaries will share their expertise in different areas such as energy, water, agribusiness, and ecosystem development and on GI products. This will provide a unique opportunity to learn about business and opportunities in and around Varanasi. Discussion about strategic collaboration, commercialization, and facilitation will be there.

The demographic and economic indicators project that India requires 50 million jobs by 2020 & 3.6 million jobs in Uttar Pradesh and GoI & GoUP promoting Entrepreneurship, Innovation and Skill development, especially in the area of Agricultural, Agri-Business and Food Technology, New and Renewable Energy and Environment Sustainability, Water & Bio-Technology. The question arises who will be ascertaining the solution to aforementioned challenges, it can only be done by a place where entrepreneurs will be able to develop and test their innovative ideas.

The purpose of this summit to stimulate growth of innovation based business and enterprise to get proper information on competitive market and multidisciplinary exposure in regards to existing market and fulfillment of this mission. This summit will serve as a common platform for Agriculture, Agri-Business, Social Entrepreneurship, Renewable energy, Food Security business. This summit will help raise the level of quality products, skills development, training, and awareness for 21st century challenge in interaction in Purvanchal Region.

## Innovation Showcasing

There will a range of tech-innovation demonstration on how knowledge and technology sourced from universities and institutions and grass root innovators has been taken up by business partners big and small in order to achieve a competitive edge.

From grass root innovators to high end-technological innovations, from e-commerce products to medical innovations, from create value out of waste to renewable energy product, in summation, innovations for better future of Purvanchal region and our country.
